(from the AHSQC team and our patients)

Platinum Level Foundation Partners

INTUITIVE
SURGICAL®

Gold Level Foundation Partners

Silver Level Foundation Partners

How Are We Doing?

27,955 Patients
315 Sites
254 Surgeons

New AHSQC Publications

- A Call for Standardization of Wound Events Reporting Following Ventral Hernia Repair (Hernia)
- Reducing Early Readmissions after Ventral Hernia Repair with the Americas Hernia Society Quality Collaborative (Journal of the American College of Surgeons)
- Comparison of Hernia Registries: the CORE Project (Hernia)
- Drain Placement Does Not Increase Infectious Complications After Retromuscular Ventral Hernia Repair with Synthetic Mesh: an AHSQC Analysis (Journal of Gastrointestinal Surgery)
- Online Surgeon Ratings and Outcomes in Hernia Surgery: An AHSQC Analysis (Journal of the American College of Surgeons)

How Can You Access AHSQC Data?

The screenshot shows the AHSQC website interface. At the top, there is a navigation bar with the AHSQC logo and the text "AMERICAS HERNIA SOCIETY QUALITY COLLABORATIVE". To the right of the logo are "LOGIN" and "JOIN" buttons. Below the logo is a horizontal menu with items: Home, FAQs, News, Patients, Publications, Data, AHSQC Foundation, and Contact. A large red arrow points from the "Data" menu item to a video player. The video player shows a map of North America with numerous red location pins. Below the map, there are statistics: "27,955 Patients" and "254 Surgeons". At the bottom of the video player area is an orange button that says "Join the AHSQC".
