

Adding CPT Codes for Enrolled Patients

- 1) Navigate to your patient list and review 'Codes' column for patients missing CPT codes

- 2) Click the 'Revision' icon (magnifying glass) for the patient you are updating

- 3) Click in the CPT code box and begin typing in the code or select from the dropdown list. You may select multiple codes, if applicable to the patient and their operation. Click 'Edit' to save the update.
