Available Patient Reported Outcomes Forms and Clinical Entry Forms will be revealed. For clinical data entry, find the appropriate form (here you see ACHQC Preop Information and Operative Details) and click on the small arrow to the right and select 'Answer'

The screenshot shows a patient registry interface for 'Smith, Frank'. The patient's ID is 88885, and their medical record number is 43416458. The patient is 34 years old, male, and has a blood type of B Poulouse. The interface includes buttons for 'Add Patient to Registry', 'Create Patient', and 'Merge Duplicate Patients'. A table lists two forms for the patient: 'ACHQC Ventral Preoperative Assessment (Patient Reported Outcomes Form)' and 'ACHQC- Preop Information and Operative Details'. A yellow arrow points to the 'Actions' dropdown for the second form, which is open, showing 'Answer Responses' as an option. Another yellow arrow points to the 'Days Left' column for the second form, which shows '85 day'.
